ABOUT ME

Md Tanbeer Jubaer, son of Md Azibor Rahman and Miss Mosrafa Moreom, has completed his BSc in Computer Science and Engineering from RUET. His research interests include Natural Language Processing (NLP), Computational Linguistics, and Machine Learning. He has worked as a Research Assistant on interdisciplinary projects and aims to pursue a PhD and an academic career focused on advancing language technologies.

RESEARCH INTERESTS

- Natural Language Processing (NLP), Computational Linguistics, Digital Humanities
- Explainable AI (XAI), Model Interpretability
- Topic Modeling, Semantic Search, Retrieval-Augmented Generation (RAG)
- Agentic AI and Autonomous Language Agents

EXPERIENCE

- Makebell** June 2025 – Present
AI Engineer Remote
 - Building and deploying AI-powered agents and workflows to support enterprise grade applications.
 - Collaborating in the design of scalable infrastructure and secure deployment pipelines for global AI services.
- Young Learners Research Lab** Jan 2023 – Present Onsite
Research Assistant
 - Conducted research on NLP and deep learning, improving model efficiency and explainability.
 - Published multiple conference and journal articles, with ongoing research in progress.
- Computational Analysis of Texts Lab** June 2023 – Present
Research Assistant Remote
 - Conducted research on word embeddings in literary texts, contextual embeddings, and topic modeling.
 - Analyzed linguistic patterns in American slave narratives and stylometric analysis of writers.

EDUCATION

- Rajshahi University of Engineering and Technology (RUET)** Feb 2020 – Present
B.Sc. in Computer Science and Engineering Rajshahi, Bangladesh
 - CGPA: 3.85 / 4.00** (7th position in department)
- Cantonment College Jashore** May 2017 – Apr 2019
Higher Secondary Certificate (Science) Jashore, Bangladesh
 - GPA: 5.00 / 5.00**

Role: Full Researcher (Concept, Dataset Curation, Implementation, Modeling, Visualization, Writing)

PROJECTS

- Quantifying Celebrity Impact over Brands using Sentiment and Topic Modeling

2023

Tools: Python, YouTube API, RoBERTa, LLM, Scikit-learn

◦ Conducted sentiment analysis and topic modeling on YouTube comments to measure public reaction following the exit of celebrity RJ Mir from Radio Mirchi.

◦ Demonstrated that Mir’s individual influence outweighed the brand value of his former organization.

◦ Utilized RoBERTa for sentiment scoring and BERTopic with LLM for topic extraction, highlighting the shift in public discourse and emotional tone.
- Sarcasm Detection in Bengali Language using Deep Learning models

2022-23

Tools: Python, Hugging Face Transformers, BERT, Scikit-learn, LSTM

◦ Used the Ben-Sarc Dataset applied custom BERT model with bi-LSTM with self supervised learning (MLM).

◦ Achieved an accuracy of **82%** which is above any study published till now.
- Local Dialect Translation using Machine Learning

2022-23

Tools: Kaggle, Python, Hugging Face, t5

◦ Trained Banglat5 model on the ONUBAD An Extensive Dataset for Automated Translation of Bangla Regional Dialects into Standard Bangla Language.

◦ Used WER as evaluation metric and achieved .09 WER rate initially.
- Amount of Sale Prediction in a Super Shop named Amana Based on Historical Data

2023-24

Tools: Python, Scikit-learn, Pandas, Numpy, Matplotlib etc.

◦ Developed a predictive model to forecast sales in a super shop using historical data.

◦ Used time series analysis and machine learning models like ARIMA, Random Forest, and Gradient Boosting.
- Erosion-Deposition Detection using Machine Learning Models

2025

Tools: Python, Scikit-learn, Random Forest, Boosting Algorithms, ANN

◦ Led a research project under the Lab of Oitik, supervising two Civil Engineering students, focusing on the detection and prediction of erosion and deposition patterns.

◦ Developed multiple machine learning models, with boosting algorithms delivering the best performance.
- RoboVox: Far-field Speaker Recognition by a Mobile Robot (IEEE SP Cup 2024)

2024

Tools: Python, NVIDIA Titanet, PyTorch, Librosa, Signal Processing

◦ Participated in IEEE SP Cup 2024 to develop a far-field, text-independent speaker recognition system under noise and reverberation.

◦ Utilized NVIDIA’s Titanet model to extract robust speaker embeddings suitable for noisy and reverberant environments.
- Maze WalkerX – 3D Puzzle Game

2022

Tools: Unreal Engine, Blueprint Visual Scripting

◦ Designed and developed a 3D maze-based puzzle game using Unreal Engine.

◦ Integrated interesting clues and in-game challenges that require players to solve logical puzzles to escape the maze.

SKILLS

Programming	Python, C, C++, Java
Data Science & ML	PyTorch, Scikit-learn, TensorFlow, Pandas, Matplotlib, OpenCV, Time Series Analysis
Transformers & LLMs	BERT, T5, LLMs, Fine-tuning, LoRA,Graph RAG, Prompt Engineering
Technologies	AWS, GitHub, Django
Professional & Soft Skills	Problem Solving, Consistency, Presentation Skills, Teamwork

HONORS AND AWARDS

- **Finalist in Dataverse Challenge** 2023
IT Verse
 - Achieved Top 15 rank in the Dataverse Challenge, showcasing strong data analysis and ML skills.
 - Selected to participate in the Final Onsite round held in Dhaka.
- **Finalist in Robi Datathon 3.0** May 2024
Robi Headquarters, Dhaka 
 - Participated in the **final round** of Robi Datathon 3.0, showcasing data science and analytics skills.
- **Bangladesh Chemistry Olympiad** 2019
Bangladesh Chemical Society
 - Secured a position among the top 5 at the divisional level and participated at the national level.
- **Bangladesh Biology Olympiad** 2019
Organized by Bangladesh Biology Olympiad (BDBO) 
 - Awarded **1st Runner-Up (Silver Medalist)** at the Khulna Regional Round, representing *Cantonment College Jashore* and National Level Participant.

LEADERSHIP EXPERIENCE

- **Team Leader - Robi Datathon 3.0 Finalist** May 2024
Robi Headquarters, Dhaka
 - Led a team in the **Robi Datathon 3.0**, successfully reaching the **final round**.
 - Coordinated team efforts, ensuring efficient problem-solving and innovation.

VOLUNTEER EXPERIENCE

- **AI Research Mentor** 2023 - Present
University Research Community
 - Mentored junior students and researchers in **AI, machine learning, and data analysis**.
 - Organized knowledge-sharing sessions on **AI ethics, RAG-based systems, and esports analytics**.

CERTIFICATIONS

- **EDGE Course Certification** February 2025
Organizer: Bangladesh Computer Council, ICT Division
- **ITEE FE Full Pass Certificate** 2024
Organizer: Bangladesh Computer Council
- **Game Development Certification** 2022

LANGUAGE PROFICIENCY

Language	Speaking	Writing	Listening
English	Intermediate	Advanced	Advanced
Bengali	Fluent	Fluent	Fluent
Japanese	Basic	N/A	N/A

INTERESTS

- Listening to Audio Books
- Playing football.
